The financials were presented for 2022 and Jan – Nov 2023. 2022 showed a profit of Approximately \$7000 while 2023 had a profit of over \$37000 due to the profitability of Carifta. There is still \$5000 outstanding that Albany is donating.

Dorian gave the President's report, which is attached.

In new business, different ideas were presented for fundraising, which is still needed as the healthy cash flow can easily be depleted in just one event, such as Carifta, which will be held in Barbados this year. Cameron and Marcos both were willing to donate their time to assist the youth with their training. BAHFLO has asked to sanction their event in Freeport in January. The next qualifier will be potcakeman on Feb. 25th. Marcos Suggested doing an Olympic distance event in 2024.

The meeting was adjourned at 8:30pm.
